BY FROST—NOR FIRE—NOR EVEN TIME ARE WELL BURNED CLAYS DESTROYED

When you plan that new home or business block, bear in mind that the only part of the Sanitarium that was left after the fire was the brick walls.

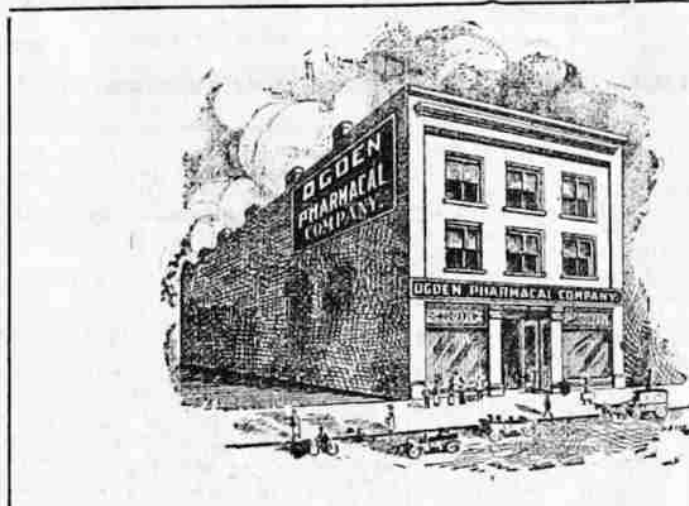

Remember, Mr. Booster, that for every extra 100,000 brick that are manufactured in Ogden you add one more family to our population.

Also that the only home industry in the building material line in Ogden is the

Leek Brick Company

Toilet Articles Are Manufactured In Ogden

WHOLESALE DRUG COMPANY IS PUTTING OUT LABORATORY PRODUCTS WHICH ARE GAINING A LARGE MARKET THROUGHOUT THE INTERMOUNTAIN COUNTRY—GROWTH OF CONCERN HAS CALLED FOR BIGGER BUILDING

While the manufacture of pharmaceuticals and toilet articles may be said to be one of Ogden's infant industries, the rapid growth of that industry has put it out of the infant class and now Ogden manufactured articles are being retailed in drug stores throughout the intermountain country. In spite of strong opposition, in the shape of the highly-advertised eastern goods, the Ogden articles have, by their merit, received recognition and have a name for themselves.

The Ogden Pharmacal company, a branch of the Ogden Wholesale Drug company, may be said to be the pioneer manufacturers of laboratory products which are common articles on the shelves of all pharmacies. It is true that many of the druggists have manufactured pharmaceuticals which were sold under their own labels for years but there was never any effort to extend the sales to other stores and cities.

The local company, but a few years ago, opened with a small room, and

the manufacturing was limited to a few flavoring products. The business grew so rapidly that new quarters were taken in a two-story building on Twenty-fourth street. It was not long before this building, too, was inadequate for the business and an additional story was added to the building. Now the manufacturing department occupies almost one entire floor of the building.

After equipping the laboratory with chemical and pharmaceutical apparatus and machinery of the latest type, the management felt confident that products could be manufactured in Ogden that would equal, if not surpass, any similar products and at the same time keep the money spent for such articles at home.

H. C. Watkins, the chemist, in charge of the manufacturing department, has had wide experience in pharmaceutical manufacturing, having held a position with Merck & Co., manufacturers. All products are made under his supervision and he has originated a number of new toilet articles that are fast making a name for

themselves and advertising Ogden as a progressive city.

The following divisions of goods are now manufactured in this city:

Emcha brand toilet goods, Opharo specialties, flavoring extracts, household remedies, fountain syrups and perfumes.

In the first named class some absolutely new articles have been turned out, including a pink cold cream, while the perfumes of the articles are all new and are manufactured from the oils. All products are manufactured to meet local conditions. For instance, the liquid shampoos are designed especially to counteract the hardness of the water.

Another strictly Ogden product is a cucumber cream manufactured from real Ogden cucumbers.

Every kind of flavoring extract is manufactured. So great was the demand for the vanilla extract that a new design percolator was recently purchased. The vanilla beans are imported direct to Ogden and the flavoring is extracted in the local laboratory.

The fountain syrup department is growing rapidly owing to the number of fountain proprietors who are using the local syrups. A special machine has been in operation for some time manufacturing orangeade syrup from oranges purchased in Ogden. Local root beer is also becoming popular because of its exceptional flavor.

Dozens of household remedies are manufactured and are offered for sale in all Ogden stores and in many stores of Idaho, Wyoming, Nevada and Wyoming.

Are You Ready to Build That New Home?

Don't fool yourself, show good sense and build it fire-proof.

A BRICK HOUSE is not only fire-proof, it is also vermin-proof, warmer in winter and cooler in summer. It grows in value. A frame house depreciates and is a constant expense, becoming more and more of an expense as repairs become more and more necessary.
